Many questions in this survey require numeric responses (e.g., dollar amounts, percentages, etc.). *Do not use symbols (% or $) or punctuation (commas, decimal points) when answering a question requiring a numeric response.* Enter the numerals <u>only</u>, or you will get an error message instructing you to enter a valid response.

NOTE: *It is extremely important that data not available can be distinguished from zero.* For example, if your department had no civilian fire deaths, report 0, *do not leave blank. Only in instances of unavailable data should an answer box be left empty.* At the bottom of each page, you will be asked to confirm that any fields left empty do indicate data is unavailable for that question. This question cannot be skipped. *Example:*

☑ Confirm data is complete, or unavailable for any field(s) above left empty.

Fire Service Personnel.

Number of firefighters: As of 12/31/2020, if actual average strength over the year differed from authorized strength, give the actual figure. Count all fire personnel, regardless of rank (not including civilians). For volunteers, please report active members (involved in fire fighting) only.

Number of **Full-time (career)** Uniform Firefighters: `137` ⟶ How many are female? `5` *must be < = the number of Full-time Uniform Firefighters*

Number of **Active Part-time (call or volunteer)** Firefighters: `0` ⟶ How many are female? `0` *must be < = the number of Active Part-time Firefighters*

☑ Confirm data is complete, or is unavailable for any field(s) above left empty.

Number of all **Firefighters** by Age Group (Career, Call, or Volunteer):

20 - 29	34
30 - 39	43
40 - 49	40
50 - 59	20
60 and Over	0
Unknown	0
TOTAL Firefighters	137

*should sum to **137** (total from previous page)*

☑ Confirm data is complete, or unavailable for any field(s) above left empty.

General Instructions.

- To assist fire departments using reporting systems in a state system as part of NFIRS, data classifications are identified for the various questions throughout the form.

- For this study, fire experience for calendar year 2020 is requested.

  Does the data reported on this form cover the time period January 1, 2020 to December 31, 2020?

  ⦿ Yes　　　　　　　　○ No

- **Report fire experience only for areas where you had primary responsibility. Do not include areas where you had mutual aid or assistance responsibilities.**

- If the answer to a given question is zero, enter the numeral 0. For questions that require a numeric response (for example, dollar amounts) enter numbers only. Do not enter symbols ($, %), commas, or decimal points.

- If you do not keep the records necessary to answer a question—data is not available—leave the box <u>empty</u>.

Definitions.

These definitions will be available throughout the survey as pop-ups (by hovering over the term in purple font with your cursor).

<u>Civilian Casualties</u>: The term "civilian" should include anyone other than a firefighter and covers public service personnel, such as police officers, civil defense staff, non-fire service medical personnel, and utility company employees.

<u>Injury</u>: Physical damage suffered by a person as a direct result of fire and that requires (or should require) treatment by a practitioner of medicine (physician, nurse, paramedic, EMT) within one year of the incident (regardless of whether treatment was actually received), or results in at least one day of restricted activity immediately following the incident.

<u>Death</u>: An injury that occurred as a direct result of a fire and that is fatal or becomes fatal within one year.

<u>Incident</u>: The movement of a piece of fire service apparatus or equipment in response to an alarm.

<u>Fires</u>: Any instance of uncontrolled burning. Include combustion explosions and fires out on arrival. Exclude controlled burning (whether authorized or not), overpressure rupture without combustion, mutual aid responses, smoke scares, and hazardous condition responses (e.g., oil spill without fire).

<u>Mutual Aid or Assistance</u>: Any assistance rendered to another fire department in an area that is not your primary responsibility.

<u>Structure</u>: An assembly of materials forming a construction for occupancy or use in such a manner as to serve a specific purpose. A building is a form of a structure. Open platforms, bridges, roof assemblies over open storage or process areas, tents, air-supported structures, and grandstands are other forms of a structure.

<u>Fires in Highway Vehicles and Other Vehicles</u>: Fires in these instances may have been associated with an accident; *however, casualties and property loss reported should be the direct result of the fire only.* If official cause of death is not directly related to fire (trauma, other wounds, etc.) do not list as civilian death. Highway vehicles include any vehicle designed to normally operate on highways, e.g., automobiles, motorcycles, buses, trucks, trailers (not mobile homes on foundations), etc. Other vehicles include trains, boats and ships, aircraft, farm, and construction vehicles.

Property Damage and Contents: Give your best estimate for overall direct loss – loss of contents, structure, machinery, a vehicle, vegetation (like crops or forest plantations or woodlands) or anything else involved in the fire. Fire loss includes contents damage by fire, smoke, water and overhaul. Construction cost resources and references such as the ICC Building Valuation Data (BVD) formula (construction types) or RS Means Cost data can be used in this fire loss calculation. Do not include indirect losses, such as business interruption, or temporary. When a value is not known, it is preferable to leave the fields blank.

PART I: Population and Area Protected of Primary Responsibility and Community Type Protected

Report the number of people (permanent residents) and the area you had primary responsibility to protect during 2020. Do not count populations or areas to which you responded under mutual aid or assistance agreements. Include populations of neighboring areas only if you had primary responsibility for their fire protection. Do not include seasonal populations (e.g., vacationers), or daytime working populations. **PLEASE DO NOT USE ANY TYPE OF SYMBOL (SUCH AS COMMAS OR PERCENTAGE SIGNS)**

Number of people (permanent residents) your department had *primary responsibility* to protect during 2020:
(exclude mutual aid areas)

`145459`

Area protected in square miles your department had *primary responsibility* to protect during 2020: *(exclude mutual aid areas)*

`63`

Please check *the one box* that best describes the community and population you had primary responsibility to protect during 2020.

- ○ a portion of a city or town
- ● a whole city or town
- ○ a township
- ○ a whole city or town plus surrounding areas or communities
- ○ a major portion of a county
- ○ an entire county
- ○ other

Percentage of population protected that lives in an unincorporated area (e.g., 0%, 12%, 100%):

`0` %

☑ Confirm data is complete, or unavailable for any field(s) above left empty.

PART II: Major Fires

Please list below all multiple-death fires (3 or more deaths), and all large-loss fires ($1 million or more) that occurred in 2020. If none, please list below the three highest loss of life fires (if any) during 2020 and also the three fires with the highest dollar loss. Do not enter N/A. **PLEASE DO NOT USE ANY TYPE OF SYMBOL (SUCH AS COMMAS OR PERCENTAGE SIGNS)** property damage.
