Emerging Themes and Priorities

- Strongest community need/priority is to take care of what we already have and update existing parks/facilities.
- Trails, trails! Connectivity and improved/expanded trails are consistently among the highest priorities for action.
- As far as facilities that need to be addressed, Cedar Lake Park has been on the radar and continues to be a focus for improvements to the dam and the amenities within the park as a top priority.
- The City currently has two locations for the farmers market that are utilized, however neither of them have a formal
 covering or structure which would be a good addition to their facilities.
- Shade, Pickleball, Restrooms, Public Art, Multi-generational Playgrounds and Inclusive Playgrounds all rounded out the top amenities desired from the public input meeting and community surveys.
- Strong support (88% of survey respondents) for maintaining and/or increasing funding for parks, trails and open space among residents. Biggest areas of priority for investment (top 5):
 - 1. Develop additional trails and connectivity
 - 2. Add more trees/shade structures to parks
 - 3. Improve existing trail system
 - 4. Improve existing park restrooms
 - 5. Improve existing parks in general
