Swimming Pool Safety Affidavit

All swimming pools projects must comply with City of Olathe Municipal Code Chapter 15.20 and the 2018 International Swimming Pool and Spa Code (ISPSC) as adopted.

Swimming Pools – Defined As: Any structure intended for swimming, recreational bathing or wading that contains water over 24 inches (610 mm) deep. This includes in-ground, above ground and on-ground pools; hot tubs; spas and fixed-in-place wading pools.

As the applicant for a permit to install a swimming pool, hot tub, or spa at:

_____, Olathe KS,
I understand and will comply with the installation of a code compliant barrier or a code compliant ASTM F1346 lockable safety cover per the 2018 ISPSC. I understand that my pool permit will not receive final approval, and the pool will not be filled, used or occupied unless the safety measures are in place and meets all code definitions set forth in 2018 ISPSC. Both the pool contractor and the homeowner are required to sign this document before plan review can begin.
